DETAILED ACTION

1. Applicants' amendments and request for reconsideration in the communication filed 2/28/05 is acknowledged and amendments entered.

Claims 1 and 3-33 are currently pending and under consideration.

2. The Information Disclosure Statement filed 4/27/05 is acknowledged and entered. References therein have been considered except documents 5 and 6 because no publication date is provided. The documents are lined-through on the PTO-1449.

3. The rejection of claims 1 and 3-33 under 35 USC 112, second paragraph, in the previous Office action is hereby withdrawn in view of the amendments to the claims.

4. This application is in condition for allowance except for the following formal matters:

The specification is objected to because of the following reasons:

4a. It appears that trademark is used in this application, such as BIOCHIPTM (owned by BRYAN, BRUCE, UNITED STATES, 716 Arden Drive Beverly Hills, CALIFORNIA 90210) on pages 1 and 17. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

4b. The specification is amended on 7/12/01 to include a brief description of the drawings beginning on page 17. The amended specification states Figure 2 comprises "a solid

Art Unit: 1631

support 1 above several regularly spaced illuminant sources 2”, whereas the Figure 2 filed on 3/5/02 contains a numeric symbol “ 1’ ” but not “1”. In the same amendment, the specification recites such numerical symbols as “1”, “2”, “3” and “4”, whereas the Figure 3 filed on 3/5/02 only contains such numeric symbols as “2” and “3”.

4c. The specification filed 5/19/2000 on pages 21-22 recite such numeric symbols as “1”, “2”, “3” and “4” for components of the apparatus represented by Figures 2-7 of the drawing. However, it is confusing as to exactly what components of the apparatus those symbols represent because the same numeric symbol, such as “2”, represents different components in different figures: “2”, for example, represents illuminant sources in Figure 2, but confusingly represents also the solid support in Figure 3 filed on 3/5/02.

4d. The drawing (Figure 3) filed on 3/5/02 is objected to because the same numeric symbol “2” represents different parts of the drawing, the solid support, the illuminant sources and the circular support.

Correction is requested.

5. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
